AT&T'S ISSUES LIST

---

Pursuant to the Pre-hearing Officer's Order dated November 16, 2000, AT&T files the following list of proposed issues in addition to the threshold issues in this case:

1. In providing caller ID services when one BellSouth end user calls another BellSouth end user, does BellSouth provide Ten-Digit Global Title Translation or a functionally equivalent operation to provide calling name service?
2. In providing caller ID services when a CLEC customer with a BellSouth ported number calls a BellSouth end user, does BellSouth provide the elements, functions, or features necessary for the CLEC customer to receive the same quality of service as BellSouth provides its customers for calling name services?
3. If the answer to Issue 2 is no, what is the reason or basis for BellSouth's not providing such elements, features or functions?
4. If the answer to Issue 2 is no, then does the failure of BellSouth to provide such elements, features or functions, give BellSouth a competitive advantage over the CLECs?
5. What remedy, if any, should be ordered in this case?

Respectfully submitted,

Val Sanford, #3316
